

MinRes Marine (MRM) ATB CHIEF MATE COMPETENCY ASSESSMENT - Operational Proficiency Passing in the Swing Basin

In line with "Resolution 7 STCW 1978 as amended – promotion of technical knowledge, skills and professionalism of seafarers";

ATB Chief Mates are to be tested on their operation and procedural knowledge for ATBs Passing in the Wheatstone LNG Swing Basin.

This Competency Assessment will apply to all permanent as well as casual partnership personnel, who are trained to relieve on the ATBs as Chief Mate. The SeaWays Training Master acting as "Competency Assessment Master" (CAM) will monitor the ATB Chief Mate's operational duties, adherence to Standard Operating Procedures, Bridge Resource Management protocols and overall competency.

At the completion of each section (as listed below) the CAM will make relevant comments; ask & answer questions and offer advice if necessary.

At the completion of the training & assessing a completed and signed pro-forma will then be provided to the ATB Chief Mate being assessed, MRM Management, Pilbara Ports, PortWays and SeaWays.

If the ATB Chief Mate is assessed by the CAM to not be competent in an area of operation, they will be given further training and rechecked as soon as practicable after the original competency assessment.

THE BELOW LIST SHALL BE COMPLETE FOR ALL ATB CHIEF MATES DURING CHECK ASSESSMENT IN PORT of ASHBURTON OPERATIONS:
