Drug and Alcohol Testing

Sonic HealthPlus is NATA accredited to AS/NZ 4308, therefore providing you the client with a legally defensible result. In order to comply with this standard and our NATA accreditation it is mandatory that ALL "not-negative" results be sent to the lab for confirmatory testing. In these cases you will be provided with a medical pending letter only stating that the test was sent for "confirmatory drug testing", once we receive the confirmatory report from the lab this will be provided to you and can then be considered a final result. The lab retains specimens for a period of three months should the result be queried.

Please note that confirmatory testing incurs an additional cost to the initial screening. In the case of a Negative result the report provided can be considered a final result.

These results relate to a standalone medical assessment or test. This means that Sonic HealthPlus has not reviewed, interpreted, escalated, advised, followed-up or commented on the results of the assessment or test (including, but not limited to, any abnormal findings).

It is clinical best practice for an appropriately qualified medical or allied health practitioner to review all medical assessment and test results. By accepting these results, you acknowledge that they have not been reviewed by a medical or allied health practitioner and that Sonic HealthPlus (and any medical or allied health practitioner engaged by Sonic HealthPlus) is not responsible for reviewing, interpreting, escalating, advising, following-up or commenting on the results of the assessment or test (including, but not limited to, any abnormal findings).
