Drug and Alcohol Testing:

As you would be aware, Sonic HealthPlus successfully attained NATA accreditation to AS/NZS 4308:2008 for collection, storage and transport of laboratory Drug Tests as well as onsite testing in 2013. This means that we deliver Drug and Alcohol Testing to the AS/NZS 4308:2008 Standard and current best practice guidelines, and according to a legally defensible regimen.

Many of you would also be aware that when a substance is detected at the initial screening, this is referred to as a "non-negative" test for that substance; it should not be referred to as "positive" test until confirmed via GCMS/LCMS testing.

**Please note that in keeping with NATA and best practice guidelines, as of 1 October 2015, all non-negative test results will be subjected to confirmatory testing via GCMS/LCMS with specimens being retained at the confirmatory laboratory for a period of three months.
Please note that Confirmatory testing incurs an additional cost to the initial screening.**
