

MRL ARTICULATED TUG & BARGE (ATB) MASTER COMPETENCY ASSESSMENT - OPERATIONAL PROFICIENCY

In line with "Resolution 7 STCW 1978 as amended - promotion of technical knowledge, skills and professionalism of seafarers" ATB Masters are to be assessed on their ATB's operational and procedural knowledge. This Competency Assessment will apply to the Company's permanent and casual employees, who are trained to relieve on the ATBs as Master. The Master acting as "Competency Assessment Master" (CAM) will monitor the ATB master's vessel handling technique and competency. At the completion of each section (as listed below) the CAM will make relevant comments, ask & answer questions and offer advice if necessary. A written summary of each section will then be made on the standard competency assessment form, with copies being given to the ATB master being assessed, Company Management and for CAM records. If the ATB master is assessed by the CAM to not be competent in an area of operation, they will be given further training and rechecked as soon as practicable after the original competency assessment.

THE BELOW LIST SHALL BE COMPLETE FOR ALL ATB MASTERS DURING CHECK ASSESSMENT IN PORT ASHBURTON OPERATIONS

	Competent	Not Competent
➤ Most current Phase 2 & Phase 3 simulation SeaWays Certificate of Achievement has been sighted and confirmed completed.	☒	☐
